

Empathy Map

Team ID: SWTID-2026-4623

Team Size:5

Project Name: Import Data using Transform Maps (Spreadsheet)

PERSONA

Name: HR Administrator

Role / User Type: HR / System Administrator

SAYS

- “I need to import employee data from Excel into ServiceNow.”
- “I want the employee information to be imported accurately.”
- “I need to avoid duplicate employee records.”

THINKS

- “Manual data entry will take a lot of time.”
- “The imported data should be mapped to the correct fields.”
- “Existing employee records should be updated instead of creating duplicates.”

DOES

- Prepares employee data in spreadsheet format.
- Uploads the spreadsheet data into the ServiceNow Import Set table.
- Creates and runs Transform Maps to import and update employee records.
- Checks the imported records and reports.

FEELS

- Concerned about incorrect or incomplete employee data.
- Worried about duplicate records during repeated imports.
- Satisfied when employee data is imported, updated, and displayed correctly through reports and dashboards.
