

Demonstration of Proposed Features

Team ID: SWTID-2026-4623

Team Size:5

Project Name: Import Data using Transform Maps (Spreadsheet)

Demonstration of Proposed Features

S.No	Feature Name	Description	Status	Demonstrated Remarks
1	Spreadsheet Data Preparation	Prepare structured employee data with Employee ID, Name, Email, Department, and Location.	Implemented Yes	Sample spreadsheet prepared and used for import.
2	Import Set	Upload spreadsheet data into the Employee Import staging table.	Implemented Yes	Employee Import staging table successfully created and loaded.
3	Transform Map	Map source spreadsheet fields to the Employee Test target table.	Implemented Yes	Sample Spreadsheet Import Transform Map configured using field mapping.
4	Coalesce / Duplicate Prevention	Use Employee ID as Coalesce to identify existing records and prevent duplicate entries.	Implemented Yes	Existing employee records are updated instead of creating duplicates.

S.No	Feature Name	Description	Status	Demonstrated Remarks
5	Insert & Update Records	Insert new employee records and update existing employee records during transformation.	Implemented Yes	Transform History verified inserted and updated records.
6	Reports & Employee Analytics Dashboard	Display employee information through department, location, employee list reports, and a centralized dashboard.	Implemented Yes	Reports and Employee Analytics Dashboard demonstrated successfully.

Feature Implementation Summary

Metric	Result
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6

Overall Implementation Rate (%) 100%

Demonstration Summary

All **6 proposed features** were implemented and demonstrated successfully. The demonstration covered the complete flow from **spreadsheet preparation** → **Import Set** → **Transform Map** → **Coalesce** → **insert/update** → **reports and dashboard**.
